Hanwha Announces 8K Camera at GSX

Enables digital zoom into large coverage areas without loss of detail

Teaneck, NJ, September 6, 2019 - At GSX 2019, in booth #251, [Hanwha Techwin America](#), a global supplier of IP and analog video surveillance solutions, will announce its new 8K network camera. The TNB-9000 utilizes a full size 35mm CMOS sensor to deliver true 8K performance at up to 12fps.

The TNB-9000 covers large areas with sufficient pixel density to allow operators to zoom in digitally and investigate image details in real time or forensically and still retain a clear image. Operators can even adjust the field of view. The camera is ideally suited for stadiums, airports and similar large spaces where installing multiple cameras may be impractical or cost prohibitive. Support for EF (Electro Focus) mount lenses, with remote focus, gives customers exceptional flexibility in lens options and low light performance.

"The TNB-9000 represents our highest performing, highest resolution camera to date",

says Ray Cooke, Vice President - Products, Solutions, and Integration at Hanwha Techwin America. "The ability to digitally zoom in to any area of an image without losing detail provides a powerful alternative to traditional multi-camera installations."

The TNB-9000 EF lens mount accommodates any Canon EF mount lenses, allowing for a wide variety of options for focal length and aperture. The TNB-9000 camera view angle can be remotely adjusted, both vertically and horizontally, without reducing pixel density. This potentially reduces the costs associated with post installation service.

Additional highlighted features:

- Auto focus for EF lenses
- Triple codec support including the H.265 main 10 profile
- Built-in fiber connectivity
- SFP slot
- HDMI output for 1080p adjustment at the camera
- PoE+ or 12Vdc.

###

About Hanwha Techwin America

Hanwha Techwin America is a subsidiary of Hanwha Corporation, a South Korean based company. Hanwha Techwin is a leading global supplier of solutions for IP and analog video surveillance. Building on the company's history of innovation, Hanwha Techwin America is dedicated to providing solutions with the highest levels of performance, reliability and cost-efficiency for professional security applications.
